The saying hind sight is 2020, well good bye and hello 2021. Hoping as we are having these trying times in our country we become cognizant of other people. Our country has a long way to go before we reach normality.

Please do your part, social distancing, limiting the number of people, and wear your mask. You must cover your nose. Your nostrils is where the air goes straight to your lungs. It's just so many health care professionals that can take care of us.
